Excerpt: . . . issued by the Commissioner of the General Land Office. These Instructions are prepared for the direction of those engaged on the public land surveys, and new editions are issued from time to time. Much of the foregoing in very condensed form is taken from the edition of 1894. The following table gives the convergency both in angular units and linear units for township 6 miles square, between latitudes 30 and 70 north. Let it be required to find from the table the linear convergence for a township situated in latitude 38 29 north. Looking in the table opposite 39 we find the linear convergence. BASE nEASUREHENT. It is not intended in what follows to go into the details of the measurement of a base for an extended system of triangulation, as that properly belongs to Geodetic Surveying. Some description of base measuring apparatus will be given, with illustrations of various devices, and special attention will be given to the use of the tape in the accurate measurement of lines such as occur in usual field operations of Plane Surveying. Much of what follows is from the excellent treatise on Topographic Surveying by Herbert M. Wilson. A...
