Unicorn Books, 2013. Paperback. Book Condition: New. A straight forward guide to invention, innovation, patenting and technology commercialization for students, designers and engineers. The book provides a clear overview of the creative processes leading up to inventions and innovations. Through fascinating case histories the author demonstrates solutions to varied engineering problems from multi span suspension bridge aluminum arch dams to satellite launch systems and ocean hydel project. Testimonials Engineers usually find it difficult to convey their thoughts in simple and captivating language as they are trained to be precise and accurate. Cawas Nazir has refreshingly overcome that defect in a lucid and readable account. Even non engineers would be delighted in reading his script." ÙJamshed Irani, Former Director Tata Sons The book is interesting to read and would enrich one's perception on the process of invention and innovation, more so, as it is chronicled by an experienced innovator. A rare addition to Indian technical literature." Ùngit Mukherjee, Fmr Dir General National Council of Science Museums, Govt. of India "The book presents challenging innovative ideas that are bound to motivate young minds towards novel designs" Ù Prof.Dhrubajyoti Sen, IIT Kharagpur.
