Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.These are tough economic times, and having a baby seems like an unaffordable luxury to many people. But it doesn't have to be. This book provides a crash course in superfrugal baby care, starting before conception and continuing through the baby's first year. You can make, birth, house, feed, diaper, clothe, entertain, and transport a baby for a mere fraction of what the experts say it all will cost, save thousands of dollars, and have fun at the same time. I wrote this book to be the reference that I wish I'd had before I started having children. It starts with basic financial planning for aspiring parents and straightforward how-to instructions for frugal baby care, and keeps right on going into black-belt frugality topics and some of the more controversial issues of modern parenting. I've read the studies and done the math, and in this book I tell you what I've learned. At the end there is a long list of helpful print and online references, for further reading.
