BRAND NEW, The No-nonsense Guide to Global Media, Steven Peter, The No-Nonsense Guide to Global Media explores the diversity of world media, from the corporate to the independent. It introduces readers to the political economy of the major media - film, television, radio, recording, publishing and the internet - looking at the concentration of ownership and the convergence of technologies and media functions. He encourages us to question how the media reflects society: are we passive recipients, or do we have a part in constructing the world?.
