

## Engineering Hydrology (4th Edition Port. Waterway and Coastal Engineering disciplines Higher water standard core curriculum materials)

Filesize: 3.01 MB

### Reviews

*This ebook is great. It typically will not expense a lot of. You will not sense monotony at any moment of your own time (that's what catalogs are for about when you question me).  
(Shaniya Torphy PhD)*

## **ENGINEERING HYDROLOGY (4TH EDITION PORT. WATERWAY AND COASTAL ENGINEERING DISCIPLINES HIGHER WATER STANDARD CORE CURRICULUM MATERIALS)**

**DOWNLOAD**

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 284 Publisher: People's traffic Pub. Date :2011-07-01 version 4. Qiu Dahong editor of Engineering Hydrology (4th edition). Water for the higher education discipline professional Port. Waterway and Coastal Engineering normative core curriculum materials. The book is divided into eight chapters. including: water cycle. basic knowledge of river hydrology. river hydrology tests. basic knowledge of statistical hydrology. river engineering design water level and flow inquire. waves. tides and coastal currents and so on. Engineering Hydrology (4th edition) as the Port. Waterway and Coastal Engineering College undergraduate teaching. but also for the graduate students. engineers and researchers in similar professional reference. Contents: Chapter 1 Introduction Section II hydrological cycle in river hydrology and marine resources. Section IV hydrology research methods chapter the basics of river hydrology and river basin section II and the formation of runoff main factors affecting the situation in Chapter III river hydrology river hydrological station Hydrometry Section II Section III flow test water level observation level IV - IV hydrological discharge curve statistical random variables and their basic knowledge of first section statistical parameters of the probability distribution of Section III hydrological frequency calculation estimated demand matrix fitting method analysis of Chapter IV-related water level and river engineering design flood flow inquire Section II design flow of navigable water level Estimating and Design Section Section VI surf the waves wind regime elements and the basics of classification Section II waves observed statistical regularity factor V IV wave spectrum of the basics of wave waves observation under Section VI Section VII according to the weather projection design wave data. we estimate storm-scale deformation of Chapter VIII. shallow tidal wave tidal section II and its causes tidal...
