THE EVOLUTION OF THE U.S. NAVYS MARITIME STRATEGY, 1977-1986: NAVAL WAR COLLEGE NEWPORT PAPERS 19

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 348 pages. Dimensions: 9.0in. x 6.0in. x 0.8in.To understand a series of events in the past, one needs to do more than just know a set of detailed and isolated facts. Historical understanding is a process to work out the best way to generalize accurately about something that has happened. It is an ongoing and never-ending discussion about what events mean, why they took place the way they did, and how and to what extent that past experience affects our present or provides a useful example for our general appreciation of our development over time. Navy, the process cannot even begin until the information and key documents become public knowledge and can be disseminated widely enough to bring different viewpoints and wider perspectives to bear upon them. This volume is published to help begin that process of wider historical understanding and generalization for the subject of strategic thinking in the U. S. Navy during the last phases of the Cold War. To facilitate this beginning, we offer here the now-declassified, full...
