Research in Science Education - Past, Present, and Future

By Behrendt, Helga / Dahncke, Helmut

Book Condition: New. Publisher/Verlag: Springer Netherlands | This truly international volume includes a selection of contributions to the Second Conference of the European Science Education Research Association (Kiel, Sept. 1999). It provides a state-of-the-art examination of science education research in Europe, discusses views and visions of science education research, deals with research on scientific literacy, on students' and teachers' conceptions, on conceptual change, and on instructional media and lab work. | Preface. Part 1: Views and Visions of Science Education Research. Science Education Researchers and Research in Transition: Issues and Policies; D. Psillos. Research in Science Education in Europe: Retrospect and Prospect; E.W. Jenkins. Science Content as Problematic - Issues for Research; P.J. Fensham. Science Education Versus Science in the Academy: Questions - Discussion - Perspectives; H. Dahncke, et al. Part 2: Scientific Literacy - Conceptions and Assessment. The Assessment of Scientific Literacy in the OECD/PISA Project; W. Harlen, et al. Scientific Literacy: From Theory to Practice; W. Gräber, et al.
